Surah Baqarah Verse 286
Sahih International

POWER UP!

Arshiya Taj is pursuing BCom From Loyla Degree College in Bangalore. She believes in the power of hard-work, and persistence. She funded her college fees herself by tutoring primary students for the first two years, post which The Ilm foundation found her through the Zakat Foundation. We decided to fund her for the third year of her college fees. The pandemic has made it difficult for her family to make ends meet. She continues to tutor primary school students and provides childcare services to support her family financially. Resisting the stereotypes of marriage in India, she with the support of her mother, has come a long way and believes in being independent and providing to her family financially. We pray she powers through to achieve immeasurable success!

THE SIGNIFICANCE OF YOUR DUA

By Dr. Shadee Elmasry.

Sometimes you make dua so much you feel like you're nagging. Or you look around and people are dying left and right and here I am asking for a personal improvement to my life that seems so insignificant in the grand scheme of things. And it seems selfish. Or your idea is so huge, it seems absurd, it would take a miracle.

When this happens, think about this...

How many people are there in this world? How many animals? How many grains of sand? And yet Allah says He knows their exact number. That's His name **Al-Muhsi**. That should change your perspective on "too much."

Have you ever seen a pesky insect in your house and killed it then wondered, what is even the point of their little existence? A gnat might live a few hours before we swat it away. Yet there was World War I, World War II, and still, Allah was creating and maintaining the world of gnats and ants and earthworms. Does that change your perspective on "significance?"

Next, take a look at some of these mountain ranges, the depths of the oceans, the expanse of outer space, or consider that absolutely none of this ever existed and suddenly was made to be without any laws of nature or cause & effect. Simply His will and saying "**Be**," and it is. Now how do you feel about your dua being "big" or "impossible."

With the right understanding of Allah, dua becomes easy. It becomes constant, and the ask becomes bigger and bigger. There is nothing large, small, or insignificant for Allah. The fact that such a being hears us and wants us to ask Him is so energizing and even life-altering.

One of my favourite ayahs: "Say, What would my Lord care for you if not for your supplication.." (**Al-Furqan 25:77, Sahih International**).

To know Him is the greatest blessing. To draw near to Him, to ask and receive, is the fulfilment of that blessing. Receiving begets more love until the focus becomes the one called upon more than the matter being called for.

He created the heavens and earth in truth and formed you and perfected your forms; and to Him is the [final] destination.

Surah At-Taghabun Verse 3
